TC-136 Ultraviolet Counterfeit Detectors

Ultraviolet counterfeit detectors TC-136 series are designed for visual counterfeit detection of world currencies, securities, credit cards, travelers cheques, documents, duty stamps and etc. These compact size detectors fit naturally in any office or store design. When most counterfeit bank notes are placed in the Money Detector they will immediately fluoresce a vivid blue color.

The watermark will be clearly visible and the metallic strip will be shown on both sides of the note as a CONTINUOUS LINE. Not all counterfeit bank notes will fluoresce, if in doubt, check the watermark, the metallic strip, the print should be very clear with colors well defined.

Ultraviolet counterfeit detectors TC-136 series fully correspond to European CE.

SPECIFICATIONS	TC-136
Dimension	184(L)x80(W)x81(H)mm
Initiate Mode	Electric Rectifier
Weight	N.W.0.5 kg; G.W.0.6 kg
Standard Packaging	50set/ctn/565*410*480mm
Power Supply	AC110V or 220V 50Hz
Power Consumption	4W or 9W
Detection Method	6 Watt Blue Glass UV Lamp
Approvals	CE Approved
